PROFESSIONAL RETOUCHING

Professional retouching is included with all images you select for your order. Minor reflections in glasses, blemishes and acne are removed and facial lines around the eyes and mouth are softened at no additional charge. Small stray or "fly-away" hair is also addressed.

Custom retouching is available for an extra charge. This can include correcting heavy eye glass refraction, eliminating facial shine and minimizing scars, moles and birthmarks. Extensive hair correction, modifying tan lines or removing braces from teeth also involves a custom price quote.

Fees for additional retouching range from \$15 - \$25 per pose and may extend delivery time of your order.

LOW-RESOLUTION DOWNLOADS

Low-Resolution downloads are unretouched preview files suitable for use on social networking sites or on your phone or other digital devices. These files include a studio watermark in the lower portion of the image. You may not make prints from these files. **Downloads are available ONLY in addition to a package purchase.**
