PROFESSIONAL RETOUCHING

Unless otherwise marked, standard professional retouching is included with the images you select for your order. Standard retouching includes removing blemishes, softening lines/bags under eyes, removing small stray and "fly-away" hair around the outside of the head and removing reflections in glasses if necessary. Moles, beauty marks and freckles are normally NOT removed.

Standard retouching plus shine removal and heavy skin retouch is available for an extra charge of \$5. Note that shine removal and heavy skin retouching will appear more artistic and less photographic in your finished order.

Extensive hair correction, removing braces from teeth and other special requests are also available for an additional charge ranging from \$5 - \$25 per pose. Ask us for a price quote.

DIGITAL FILES

High-resolution digital files are included in many packages and include a copy release for printing or other use.
